"You don't own a gun, Aunt Gen..".rod, taking the clothes to the closet floor.. "How long before the Kuan-yin is eclipsed?" Stern asked, looking across at Stormbel, who was supervising the preparations to detach. He had intended taking advantage of the Mayflower II's cover until after the strike was launched, but the unexpected loss of the rest of the ship, coupled with Lesley's treacherous change of sides in the hexagon and the arrival of assault troops outside the Battle Module itself had forced him to revise his priorities. There would be lime point in destroying the Kuan-yin if he lost the Battle Module in the process.. "Do him good too," Sirocco declared. "Then they might make him an engineer. But you'll have a hard time. He's holding out till he's found out what the talent's like on Chiron..".Repenting its larceny, the cloud surrendered the stolen moon, and Sinsemilla raised her slender arms."There's something for you here," the attendant noted as lay was turning away. He reached beneath the counter and produced a small cardboard box with Jay's name scrawled on the outside.. "No, Curtis. I just think you're too sweet for this world..". "Been having a nice chat, have you?" Sirocco asked. "Well, yes, actually, I suppose, sir. How did you know?" Sirocco waved at the corridor behind him. "Because it's happening everywhere else, that's how. Carson's talking football, and Maddock is telling some kids about what it was like growing up on the Mayflower II." He sighed but didn't sound too ruffled about it. "If you can't beat 'era, then join 'era, eh, Driscoll... for an hour or so, anyway. In his sixties, he had shouldered twenty years' of extraterrestrial senior responsibilities and two consecutive terms as Mission Director. Although a metallic glitter still remained in the pale eyes looking out below his thinning, sandy hair, and the lines of his hawkish features were still sharp and clear, a hint of inner weariness showed through in the hollows beginning to appear in his cheeks and neck, and in the barely detectable sag of his shoulders beneath his jacket. His body language seemed to say that when he finally had shepherded the Mayflower I1 safely to its destination, he would he content to stand down..tires..life is all one long playtime. But it's not really their fault because they're not really people like us." The conviction was widespread even though the Mayflower II's presiding bishop was carrying a special ordinance from Earth decreeing that Chironians had souls. Jean realized that she had left* herself open to misinterpretation and added hastily, "Well, they are people, of course. But they're not exactly like you because they were born without any mothers or fathers. You mustn't hate them or anything. Just remember that you're a little better than they are because you've been luckier, and you know about things they've never had a chance to learn. Even if we have to be a little bit firm with them, it will be for their own good in the end..".and she went inside..Jean shook her head. "There must be something-the Chironians! He'd have to believe them. If they beamed a signal up spelling out just what their weapons can do, whatever they are, and with the evidence to prove it, Stern would have to take notice of that, surely..".grand..".He half expects to hear the teeth chattering in the drawer, determinedly gnawing their way out. "Her friends showed up, and she's in Franklin. It all went fine." He turned his head to Celia. "This is Bret. He got Veronica off the base..".She advanced one more step, not out of a sense of obligation or curiosity,

but because by turning away. The bewildering proliferation first of baryons and mesons, and later the quarks, which were supposed to simplify them, that had plagued studies of the structure of matter to the end of the twentieth century had been reduced to an orderly hierarchy of "generations" of particles. Each generation contained just eight particles: six quarks and two leptons. The first generation comprised the "up" and "down" quarks, each appearing in the three colorcharge variants peculiar to the strong nuclear force to give six in all; the electron; and the electron-type neutrino. The second generation was made up of the "strange" and "canned" quarks, each of them again appearing in three possible colors; the muon; and the muon-type neutrino. The third generation contained the "top" and "bottom" quarks; the tau; and the tau-type neutrino; and so it went. Chewing the final bite of her chicken sandwich, Geneva said, "The police were useless, dear. I had to
